Rs.50 Crore Non Convertible Debentures	Withdrawn (Crisil AA-/Watch Negative)

Note: None of the Directors on Crisil Ratings Limited's Board are members of rating committee and thus do not participate in discussion or assignment of any ratings. The Board of Directors also does not discuss any ratings at its meetings.

1 crore = 10 million

Refer to Annexure for Details of Instruments & Bank Facilities

Detailed Rationale

Crisil Ratings' ratings on Rs 875 crore of bank facilities of Allcargo Logistics Ltd (Allcargo) continues on **'Rating Watch with Negative Implications'**. The ratings on Rs 200 crore of bank facilities have been revised to **'Rating Watch with Negative Implications'** from **'Rating Watch with Developing Implications'**. Also, the ratings on Rs 150 crore of non-convertible debentures (NCDs) have been **withdrawn** at the company's request in line with Crisil Ratings' policy on withdrawal of ratings.

The negative view factors the continued muted performance of the international supply chain (ISC) business, which contributed to ~87% of the group's revenue in the first quarter of fiscal 2026. It also factors the expected moderation in the business and financial risk profiles of Allcargo Logistics Ltd (herein referred to as new ACL), as per the company's demerger plans.

On December 21, 2023, the company's board of directors approved a composite scheme of arrangement (demerger) whereby its ISC business, comprising global and domestic supply chains, as well as its support functions will be de-merged into a new company – Allcargo Global Ltd (AGL) (previously Allcargo ECU Ltd or AEL), while the express (Allcargo Gati and Gati Express & Supply Chain Pvt Ltd) and contract logistics [Allcargo Supply Chain Pvt Ltd (ASCPL)] business will merge and continue as new ACL.

New ACL reported revenue of Rs 492 crore (~13% share of the Allcargo group's revenue) in the first quarter of fiscal 2026 and a negative post Ind AS adjusted earnings before interest, tax, depreciation and amortisation (EBITDA) of Rs 5 crore. While complete details on the split of outstanding debt between new ACL and AGL are awaited, new ACL is expected to hold mainly working capital debt related to express and contract logistics, the Gati KWE acquisition loan and portion of general corporate loan, total amounting to ~12% share of the group's gross debt of Rs 1,060 crore as on June 30, 2025. Cash and equivalents were ~Rs 153 crore as on June 30, 2025, for new ACL. Accordingly, the overall business as well as financial risk profiles of new ACL will moderate compared to the existing Allcargo.

The operating performance of ISC, which will operate under AGL post de-merger, is facing continued headwinds, impacted by the overall slowdown in global trade volumes. In fiscal 2025, while revenue reported a 25% on-year growth to Rs 14,077 crore, it was largely supported by higher freight rates given volume growth remained modest. The Pre-Ind AS adjusted EBITDA in value however remained at Rs 217 crore in fiscal 2025 (Rs 194 crore previous fiscal). Further, in the first quarter of fiscal 2026, the performance saw a dip with revenue from operations recorded at Rs 3,330 crore, which was 3% over the previous quarter and largely in line with the corresponding period of the previous fiscal; the operating profitability (before foreign exchange [forex] losses) deteriorated and reported at ~1.6% in the first quarter of fiscal 2026 (fiscal 2025: 2.2%; first quarter of fiscal 2025: 2.4%) as volume growth continued to be flat. While there has been a gradual improvement in gross profits, EBITDA remains moderate due to high Selling, General & Administrative expenses, one-time write-offs as well as currency depreciation in the quarter. The ratings continue to be backed by the moderate financial risk of the ISC business and leading market position in the global LCL (less than container load) consolidation business.

There has been a gradual increase in the working capital requirements for the group since last fiscal, largely on account of higher freight rates, that resulted in an increase in short-term debt to Rs 808 crore as on March 31, 2025, from Rs 434 crore a year earlier, which further increased to Rs 853 crore at end-June 2025. However, moderation in overall debt is expected with term debt repayments of nearly Rs 330 crore this fiscal and the company maintaining an asset light business approach.

This demerger is expected to be completed by the third quarter of fiscal 2026 with the hearing with the National Company Law Tribunal (NCLT) scheduled in the fourth week of September 2025. Crisil Ratings is in discussion with Allcargo's management to better understand the exact bifurcation of the current outstanding debt and will resolve the watch once there is better clarity and the key regulatory approvals are received.

Analytical Approach

- For arriving at the ratings of continuing Allcargo, Crisil Ratings has combined the business and financial risk profiles of Allcargo and its 131 subsidiaries including Allcargo Gati. This is because the entities, collectively referred to as the Allcargo group, are under a common management and have strong financial and operational linkages. Crisil Ratings has also combined the business and financial risk profiles of contract logistics business operated through its now 100% subsidiary (w.e.f. May 17, 2023), ASCPL, as it is in a similar business with operational linkages and under the same management.
- Furthermore, Crisil Ratings has amortised goodwill on acquisitions made by the group, over five years from the date of each acquisition. For Allcargo Gati, a goodwill of Rs 224 crore has been amortised beginning fiscal 2020, Rs 92 crore for Nordicon AB beginning fiscal 2022 and Rs 269 crore for ASCPL and Rs 58 crore for Fair Trade GmbH in fiscal 2023.
- Crisil Ratings has adjusted EBITDA by excluding lease rental components with depreciation and finance costs to comply with IndAS116 on lease accounting. Accordingly, Crisil Ratings has not included lease liabilities in debt.

Please refer Annexure - List of Entities Consolidated, which captures the list of entities considered and their analytical treatment of consolidation.

Key Rating Drivers & Detailed Description Strengths:

- Established position in the global ISC and express logistics business:** The company is India's largest, and a leading global operator, in the ISC container consolidation business, backed by a strong global network. It is the largest player in the LCL consolidation industry holding about 15% market share globally having achieved higher than global trade volume growth through market share gains and improved efficiencies over the years. It connects 2,400 direct trade lanes providing value to small and large freight forwarders. The segment benefitted from healthy volume growth and improved realisation during the pandemic years, which continued till the first half of fiscal 2023 but moderated subsequently impacting Allcargo's operating performance since then.

Besides, the company is a leading player in the express logistics segment in India, through its subsidiary, Allcargo Gati. Allcargo Gati is one of the largest business-to-business (B2B) express logistics companies having extensive coverage in India and offers logistics solutions to clients including express distribution, which includes surface distribution and air freight and supply chain management solutions. The company increased its stake in Gati KWE (now GESPL), the express logistics joint venture (JV) by buying out the remaining 30% stake for Rs 406.5 crore in May 2023. It also operates a healthy contract logistics business through ASCPL, in which it acquired the remaining ~39% stake in May 2023 for Rs 163 crore and exited the custom clearance and freight forwarding (CCFF) business by selling off its 61% stake in Avvashya CCI Logistics Pvt Ltd for Rs 39 crore.

- Integrated logistics player with presence across diversified segments:** The Allcargo group has a diversified business risk profile with three major segments — ISC, express logistics, and contract logistics — contributing 88%, 9%, and 3%, respectively, to the total revenue in fiscal 2025. The company earlier had presence in domestic Container Freight Stations / Inland Container Depot, warehousing, which has now been de-merged into other two new entities.

Gati's extensive reach provides vertical integration to the ISC business which, along with the contract logistics business, enhances the group's ability to offer integrated transportation and logistics solutions to its diversified clientele, thus enhancing the business risk profile.

- Comfortable financial risk profile:** Allcargo's financial risk profile remains comfortable as on June 30, 2025, with net debt of ~Rs 467 crore and gross debt of Rs 1059 crore and cash surplus of Rs 592 crore with healthy cash accruals. Gearing stood at 0.44 time as on March 31, 2025 while adjusted interest cover was ~3.3 times for fiscal 2025. However, debt-to-Pre-Ind AS EBITDA has moderated from 0.70 time in fiscal 2023 to around 5.29 times with Crisil Ratings adjusted EBITDA adjusting for around ~Rs 297 crore of lease interest and depreciation for fiscal 2025.

The company's utilisation of short-term debt has increased to Rs 853 crore as on June 30, 2025, from Rs 434 crore as on March 31, 2024, primarily due to an increase in freight rates. Increase in term debt was primarily towards an incremental stake purchase: Rs 406.5 crore in May 2023 for the acquisition of remaining 30% stake in Gati KWE (part funding it through Rs 200 crore term loan), payment of Rs 124 crore (net of sale of ACCI stake) in May 2023 for acquiring the remaining stake in ASCPL, payment of \$ 20.97 million in August 2023 for acquiring additional 25% stake in Nordicon AB. In May 2024, the company took the remaining 25% stake in Fair Trade GmbH for Euro 2.9 million, making it a 100% ACL owned entity. The company has already repaid ~Rs 160 crore of term loans in the first quarter of fiscal 2026 of the total scheduled repayment of around Rs 330 crore for the year, which is expected to bring down debt significantly given that the company is looking to reduce debt, however any debt funded acquisition while not planned would remain a key monitorable.

Weaknesses:

- Volatility in EXIM (exports and imports) trade:** The ISC business is directly linked to global EXIM trade and hence sluggishness in EXIM trade, in case of a steep fall in global trade, could impact freight volumes, freight rates and profitability of the company. Crisil Ratings expects moderate industry conditions to persist over the medium term given overall muted demand scenario especially from key markets in Europe, before meaningful improvement begins.

- **Intense competition in ISC and surface transport businesses:** The ISC business is exposed to intense competition from large carriers as well as aggregators such as Allcargo who have strong local presence. Moreover, the surface transport business in India also faces stiff competition from new entrants who enjoy robust financial backing as well as established players in the industry. While the company's global presence and strong experience in operating the logistics business provides comfort, it continues to be impacted by the stiff competition in the industry.

Liquidity: Strong

Liquidity is supported by substantial cash generation and asset-light business, cash of Rs 592 crore as on June 30, 2025, and moderate bank limit utilisation (average utilisation of the fund-based limit at a standalone level was ~61% during the six months through July 2025). Healthy liquidity and cash accruals with nominal capital expenditure (capex) and debt repayments (Rs 330 crore in fiscal 2026, and only ~Rs 27 crore and Rs 4 crore in fiscals 2027 and 2028, respectively) should keep liquidity strong over the medium term.

ESG profile

Crisil Ratings believes Allcargo's Environment, Social, and Governance (ESG) profile supports its already strong credit risk profile.

The logistics sector has a relatively higher impact on the environment because of the inherent nature of assets utilised for the physical delivery of goods. However, given Allcargo is a leading LCL consolidator, its direct impact on the environment is limited vis-à-vis its partners and customers who might have a higher impact. The company though has a social impact because of its large and diverse workforce. Allcargo has continuously focused on mitigating its environmental and social impact.

Key ESG highlights:

- ESG disclosures of the company are evolving, and it is in the process of further strengthening the disclosures
- Allcargo began releasing its ESG report from fiscal 2020 setting out qualitative parameters of the ESG emphasising its commitment to creating a better world
- Through its corporate social responsibility (CSR) arm, Avashya Foundation, it is working to bring about inclusive development in six focus areas: Health, education, environment, women empowerment, sports and disaster relief, through its network of reliable partner NGOs, who are doing incredible work on the ground
- The company has planted more than 710,000 trees through Avashya Foundation's Maitree initiative
- The company has 50% women in the workforce in its global subsidiary, ECU Worldwide and endeavors to achieve similar levels in other group companies
- It has adequate governance structure with 50% of its board comprising independent directors and extensive disclosures

There is growing importance of ESG among investors and lenders. Allcargo's commitment to ESG principles will play a key role in enhancing stakeholder confidence, given its high share of market borrowings in its overall debt and access to both domestic and foreign capital markets.

Rating sensitivity factors

Upward factors

- Strong and sustained revenue growth, with Pre-Ind AS lease adjusted EBITDA upwards of Rs 450 crore (upwards of reported EBITDA of Rs 740 crore)
- Substantial improvement in debt metrics while maintaining strong liquidity

Downward factors

- Continuing moderation in the business risk profile, including due to weak operating performance owing to slowdown in trade volumes, impacting cash flows
- Large, debt-funded capex or acquisition, resulting in sustained and significant weakening in net debt/pre-Ind AS EBITDA to 1.5-2.0 times on a sustained basis
- Any large cash outflow in the form of dividend or share buyback or large acquisition affecting liquidity

About the Company

The Allcargo group is promoted by Mr Shashi Kiran Shetty. As a group it provides logistics services such as container consolidation (Non Vessel Operating Common Carrier), express logistics, contract logistics, CFS, ICD and warehousing.

Post the previous de-merger effective April 1, 2023, currently Allcargo houses the NVOCC (under international supply chain segment), express logistics (under subsidiary Allcargo Gati), and contract logistics (ASCPL, wholly owned w.e.f. May 17, 2023) businesses. The group is a leading global operator in the ISC container consolidation business and has grown over the years through various acquisitions. Since the acquisition of the Belgium-based ECU Line in 2006, the Allcargo group has emerged as a leading LCL consolidator in the world and further solidified its position in September 2013 through the acquisition of Econocaribe Consolidators to increase its presence in the US and its focus on Full Container Load (FCL) cargo.

In April 2020, Allcargo completed acquisition of 46.86% stake in Gati entering the express logistics business which complements its ISC business. The stake was further increased to 50.02% in fiscal 2022 through a mix of primary and secondary purchase of equity shares. Gati was founded in 1995, is one of India's oldest and leading express logistics players. The company is engaged in the business of providing logistics solutions including express distribution (surface and air) as well as supply chain management solutions. It has pan-India network covering 99% of districts and government approved pin codes.

In the first quarter of fiscal 2026, the revenue from operations for the group was reported at Rs. 3,817 crore, which was 1.4% higher year-on-year with an absolute Pre-Ind-AS adjusted EBITDA (before foreign exchange losses) of Rs 19 crore (first quarter of fiscal 2025: Rs 62 crore) with the moderated performance being driven by the global macroeconomic headwinds affecting the ISC business. However, at the end of the first quarter of fiscal 2026, net debt was lower by 8% on-year at Rs 467 crore.

About Crisil Ratings Limited (A subsidiary of Crisil Limited, an S&P Global Company)

Crisil Ratings pioneered the concept of credit rating in India in 1987. With a tradition of independence, analytical rigour and innovation, we set the standards in the credit rating business. We rate the entire range of debt instruments, such as bank loans, certificates of deposit, commercial paper, non-convertible/convertible/partially convertible bonds and debentures, perpetual bonds, bank hybrid capital instruments, asset-backed and mortgage-backed securities, partial guarantees and other structured debt instruments. We have rated over 33,000 large and mid-scale corporates and financial institutions. We have also instituted several innovations in India in the rating business, including ratings for municipal bonds, partially guaranteed instruments and infrastructure investment trusts (InvITs).

Crisil Ratings Limited ('Crisil Ratings') is a wholly-owned subsidiary of Crisil Limited ('Crisil'). Crisil Ratings Limited is registered in India as a credit rating agency with the Securities and Exchange Board of India ("SEBI").

CRISIL PRIVACY NOTICE

Crisil respects your privacy. We may use your contact information, such as your name, address and email id to fulfil your request and service your account and to provide you with additional information from Crisil. For further information on Crisil's privacy policy please visit www.crisil.com.

DISCLAIMER

This disclaimer is part of and applies to each credit rating report and/or credit rating rationale ('report') provided by Crisil Ratings Limited ('Crisil Ratings'). For the avoidance of doubt, the term 'report' includes the information, ratings and other content forming part of the report. The report is intended for use only within the jurisdiction of India. This report does not constitute an offer of services. Without limiting the generality of the foregoing, nothing in the report is to be construed as Crisil Ratings provision or intention to provide any services in jurisdictions where Crisil Ratings does not have the necessary licenses and/or registration to carry out its business activities. Access or use of this report does not create a client relationship between Crisil Ratings and the user.

The report is a statement of opinion as on the date it is expressed, and it is not intended to and does not constitute investment advice within meaning of any laws or regulations (including US laws and regulations). The report is not an offer to sell or an offer to purchase or subscribe to any investment in any securities, instruments, facilities or solicitation of any kind to enter into any deal or transaction with the entity to which the report pertains. The recipients of the report should rely on their own judgment and take their own professional advice before acting on the report in any way.

Crisil Ratings and its associates do not act as a fiduciary. The report is based on the information believed to be reliable as of the date it is published, Crisil Ratings does not perform an audit or undertake due diligence or independent verification of any information it receives and/or relies on for preparation of the report. THE REPORT IS PROVIDED ON "AS IS" BASIS. TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAWS, CRISIL RATINGS DISCLAIMS WARRANTY OF ANY KIND, EXPRESS, IMPLIED OR OTHER WARRANTIES OR CONDITIONS, INCLUDING WARRANTIES OF MERCHANTABILITY, ACCURACY, COMPLETENESS, ERROR-FREE, NON-INFRINGEMENT, NON-INTERRUPTION, SATISFACTORY QUALITY, FITNESS FOR A PARTICULAR PURPOSE OR INTENDED USAGE. In no event shall Crisil Ratings, its associates, third-party

providers, as well as their directors, officers, shareholders, employees or agents be liable to any party for any direct, indirect, incidental, exemplary, compensatory, punitive, special or consequential damages, costs, expenses, legal fees or losses (including, without limitation, lost income or lost profits and opportunity costs) in connection with any use of any part of the report even if advised of the possibility of such damages.

The report is confidential information of Crisil Ratings and Crisil Ratings reserves all rights, titles and interest in the rating report. The report shall not be altered, disseminated, distributed, redistributed, licensed, sub-licensed, sold, assigned or published any content thereof or offer access to any third party without prior written consent of Crisil Ratings.

Crisil Ratings or its associates may have other commercial transactions with the entity to which the report pertains or its associates. Ratings are subject to revision or withdrawal at any time by Crisil Ratings. Crisil Ratings may receive compensation for its ratings and certain credit-related analyses, normally from issuers or underwriters of the instruments, facilities, securities or from obligors.

Crisil Ratings has in place a ratings code of conduct and policies for managing conflict of interest. For more detail, please refer to: <https://www.crisil.com/en/home/our-businesses/ratings/regulatory-disclosures/highlighted-policies.html>. Public ratings and analysis by Crisil Ratings, as are required to be disclosed under the Securities and Exchange Board of India regulations (and other applicable regulations, if any), are made available on its websites, www.crisilratings.com and <https://www.ratingsanalytica.com> (free of charge). Crisil Ratings shall not have the obligation to update the information in the Crisil Ratings report following its publication although Crisil Ratings may disseminate its opinion and/or analysis. Reports with more detail and additional information may be available for subscription at a fee. Rating criteria by Crisil Ratings are available on the Crisil Ratings website, www.crisilratings.com. For the latest rating information on any company rated by Crisil Ratings, you may contact the Crisil Ratings desk at crisilratingdesk@crisil.com, or at (0091) 1800 267 3850.

Crisil Ratings shall have no liability, whatsoever, with respect to any copies, modifications, derivative works, compilations or extractions of any part of this [report/ work products], by any person, including by use of any generative artificial intelligence or other artificial intelligence and machine learning models, algorithms, software, or other tools. Crisil Ratings takes no responsibility for such unauthorized copies, modifications, derivative works, compilations or extractions of its [report/ work products] and shall not be held liable for any errors, omissions or inaccuracies in such copies, modifications, derivative works, compilations or extractions. Such acts will also be in breach of Crisil Ratings' intellectual property rights or contrary to the laws of India and Crisil Ratings shall have the right to take appropriate actions, including legal actions against any such breach.

Crisil Ratings uses the prefix 'PP-MLD' for the ratings of principal-protected market-linked debentures (PPMLD) with effect from November 1, 2011, to comply with the SEBI circular, "Guidelines for Issue and Listing of Structured Products/Market Linked Debentures". The revision in rating symbols for PPMLDs should not be construed as a change in the rating of the subject instrument. For details on Crisil Ratings' use of 'PP-MLD' please refer to the notes to Rating scale for Debt Instruments and Structured Finance Instruments at the following link: <https://www.crisilratings.com/en/home/our-business/ratings/credit-ratings-scale.html>
