Allcargo International Supply Chain (ISC) Monthly Operational Update

LCL operations:

- LCL volume for the month of May 2024 witnessed an increase of 4% as compared to April 2024. As compared to May 2023 volume witnessed a marginal decline of 1%.
- Volumes are expected to improve on the back of demand reflecting in increase in freight rates. There is an expectation that this increase in demand will continue through the traditional peak season till end of the year.
- We witnessed an increase in volume in all major regions like APAC, Latin America (LATAM), United States, Europe and Middle East.

- **Container utilization:** Improved marginally on the back of increased volumes.

Note: The Index shows Container utilization (Cbm/TEU) levels rebased as May 2023 = 100

40 feet ratio: Improvement in 40 feet container usage is visible due to efficient trade lane management and focus on usage of 40 feet containers on important routes.

Note: The Index shows 40 feet Container usage (number of 40 feet containers as % of total containers used) levels rebased as May 2023 = 100

FCL operations:

- FCL volume for the month of May 2024 witnessed a significant increase of 10% as compared to last month and 15% as compared to May 2023
- Volumes were higher in APAC, LATAM and Middle East.
