Allcargo International Supply Chain (ISC) Monthly Operational Update

LCL operations:

- LCL volume for the month of August 2023 was down 5% as compared to August 2022 and flat as compared to July 2023. January 2023 onwards, the volume includes ~1.5% contribution from the new acquisition in Germany.
- Our focus on market share continues amidst increased competition but overall demand remains muted. Our near-term expectation of a muted demand outlook along with softer yields remains intact.
- Sequentially, we saw minor improvement in Canada and India while APAC, Europe, and Middle East and Africa regions saw muted growth.

Note: Jan 2023 onwards volumes include recently acquired German entity

- **Container utilization:** Container utilization continues to remain soft, reflecting lower volumes on a YoY basis; however, the index appears better Y-o-Y vs. our last update as the base period has improved marginally. Sequentially, it has remained rangebound post Chinese New Year.

Note: The Index shows Container utilization (Cbm/TeU) levels rebased as Sep 2022 = 100
