Allcargo International Supply Chain (ISC) Monthly Operational Update

LCL operations:

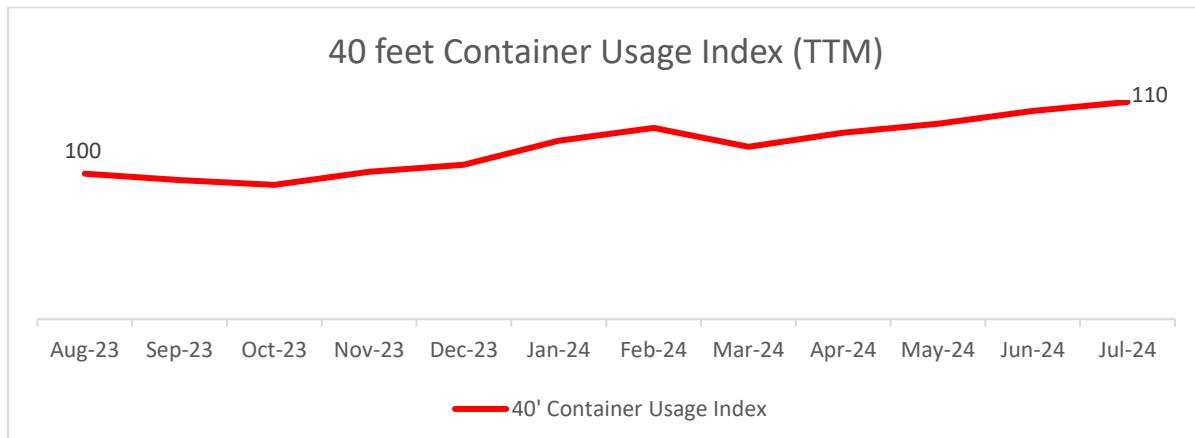

- LCL volume for the month of July 2024 stood at 818'000 cubic meters similar to its highest ever monthly volume which was recorded in August 2022.
- This represents an increase of 6% as compared to previous month and 5% as compared to July 2023.
- Volumes have steadily increased on the back of improved global trade and company's growth initiatives. We expect the momentum to remain through the year.
- On the back of volumes, freight rates are also anticipated to stay high until the end of peak season.
- An increase in volume was witnessed in all major regions like USA, Latin America, Europe, Asia Pacific, and Middle East.

- **Container utilization:** Improved utilization is on the back of increase in volumes.

40 feet ratio: Improvement in 40 feet container usage is on account of increased volume and focus on usage of 40 feet containers.

Note: The Index shows 40 feet Container usage (number of 40 feet containers as % of total containers used) levels rebased as Aug 2023 = 100

FCL operations:

- FCL volume for the month of July 2024 were similar as compared to last month and representing a growth of 7% as compared to July 2023.
- FCL volumes have been overall flat with marginal declines in China, Vietnam and Mexico and increase in India, Turkey and UAE.
